SYMPOSIUMS

Prostaglandins, Leukotrienes, and Lung Fluid Balance

Chaired by *A. B. Malik*

Introduction. *A. B. Malik* ... 18
Arachidonic acid metabolites and endothelial injury: studies with cultures of human endothelial cells. *A. R. Johnson, G. Revtyak, and W. B. Campbell* ... 19
Leukotrienes: their formation and role as inflammatory mediators. *A. W. Ford-Hutchinson* ... 25
Effect of neutrophil migration induced by leukotriene B_4 on protein permeability in sheep lung. *N. C. Staub, E. L. Schultz, K. Koike, and K. H. Albertine* ... 30
Pulmonary microvascular effects of arachidonic acid metabolites and their role in lung vascular injury. *A. B. Malik, M. B. Perlman, J. A. Cooper, T. Noonan, and R. Bizios* ... 36
Metabolites of arachidonic acid in experimental lung vascular injury. *K. L. Brigham* ... 43
Arachidonate cyclooxygenase metabolites as mediators of complement-initiated lung injury. *M. H. Gee, S. Z. Perkowski, M. V. Tahamont, and J. T. Flynn* ... 46

Factors Influencing Vasopressin Levels in Body Fluids

Chaired by *J. R. Claybaugh*

Introduction. *J. R. Claybaugh* ... 53
Current concepts of volume receptor regulation of vasopressin release. *R. P. Menninger* ... 55
Metabolism of vasopressin. *L. Share, T. Kimura, K. Matsui, R. E. Shade, and J. T. Crofton* ... 59
Factors influencing urinary vasopressin concentration. *J. R. Claybaugh and A. K. Sato* ... 62
Neurological control of vasopressin release. *J. R. Sladek, Jr. and C. D. Sladek* ... 66
Factors influencing the secretion of vasopressin into cerebrospinal fluid. *B. C. Wang, L. Share, and K. L. Goetz* ... 72
The use of antagonists of vasopressin in studies of its physiological functions. *W. H. Sawyer and M. Manning* ... 78

MINISYMPOSIUM SUMMARY

Fatty acyl-CoA as an effector molecule in metabolism. *G. L. Powell, P. S. Tippett, T. C. Kiorpes, J. McMillin-Wood, K. E. Coll, H. Schulz, K. Tanaka, E. S. Kang, and E. Shrago* ... 81

SYMPOSIUM SUMMARY

Depression: implications of clinical studies for basic research. *I. Hanin, A. Frazer, J. Croughan, J. M. Davis, M. M. Katz, S. H. Koslow, J. W. Maas, and P. E. Stokes* ... 85

SYMPOSIUMS

Enkephalins-Endorphins: Stress and the Immune System

Chaired by *N. P. Plotnikoff and A. J. Murgo*

Introduction. *N. P. Plotnikoff and A. J. Murgo* ... 91
Enkephalins and endorphins as modifiers of the immune system: present and future. *J. Wybran* ... 92
Morphine depression of T cell E-rosetting: definition of the process. *R. M. Donahoe, J. J. Madden, F. Hollingsworth, D. Shafer, and A. Falek* ... 95
Anatomy of the corticotropin-releasing factor and opiomelanocortin systems of the brain. *S. A. Joseph, W. H. Pilcher, and K. M. Knigge* ... 100
A complete regulatory loop between the immune and neuroendocrine systems. *J. E. Blalock and E. M. Smith* ... 108
Neurotransmitters, hormones, and cyclic nucleotides in lymphocyte regulation. *R. G. Coffey and J. W. Hadden* ... 112
Enkephalins: immunomodulators. *N. P. Plotnikoff, A. J. Murgo, G. C. Miller, C. N. Corder, and R. E. Faith* ... 118

Metabolic Interactions of Nutrition and Drugs

Chaired by *J. N. Hathcock*

Introduction. *J. N. Hathcock* ... 123
Metabolic mechanisms of drug-nutrient interactions. *J. N. Hathcock* 124
Nutrient regulation of chemical metabolism in humans. *K. E. Anderson, E. J. Pantuck, A. H. Conney, and A. Kappas* ... 130
Metabolic effects of alcohol. *E. Mezey* ... 134
Mechanisms of appetite modulation by drugs. *A. C. Sullivan and R. K. Gruen* ... 139

Number 1, Part 2. JANUARY 1985

CONFERENCE

Corticotropin-Releasing Factor

Introduction. *W. Vale and M. Greer* ... 145
Attending the conference ... 147
Mechanisms by which stressful stimuli activate the pituitary-adrenal system. *G. B. Makara* ... 149
Role of epinephrine and vasopressin in the control of the pituitary-adrenal response to stress. *F. J. H. Tilders, F. Berkenbosch, I. Vermes, E. A. Linton, and P. G. Smelik* ... 155
Neural interaction in control of adrenocorticotropin. *D. S. Gann, D. A. Bereiter, D. E. Carlson, and K. V. Thrivikraman* ... 161
Neural pathways mediating adrenocortical responses. *S. Feldman* 169
Closed-loop feedback control of the nyctohemeral rise in adrenocortical system function. *S. F. Akana, J. Shinsako, and M. F. Dallman* ... 177

CONFERENCE

Corticotropin-Releasing Factor

Introduction. *W. Vale and M. Greer* ... 145
Attending the conference ... 147
Mechanisms by which stressful stimuli activate the pituitary-adrenal system. *G. B. Makara* ... 149
Role of epinephrine and vasopressin in the control of the pituitary-adrenal response to stress. *F. J. H. Tilders, F. Berkenbosch, I. Vermes, E. A. Linton, and P. G. Smelik* ... 155
Neural interaction in control of adrenocorticotropin. *D. S. Gann, D. A. Bereiter, D. E. Carlson, and K. V. Thrivikraman* ... 161
Neural pathways mediating adrenocortical responses. *S. Feldman* 169
Closed-loop feedback control of the nyctohemeral rise in adrenocortical system function. *S. F. Akana, J. Shinsako, and M. F. Dallman* ... 177

Biological and immunological studies of bovine hypothalamic corticotropin-releasing factor. *N. Yasuda and Y. Yasuda* 183
Effects of corticotropin-releasing factor, neurohypophyseal peptides, and catecholamines on pituitary function. *C. Rivier and W. Vale* 189
Clinical studies with synthetic ovine corticotropin-releasing factor. *D. N. Orth, C. R. DeBold, G. S. DeCherney, R. V. Jackson, W. R. Sheldon, Jr., W. E. Nicholson, H. Uderman, A. N. Alexander, D. P. Island, J. Rivier, and W. W. Vale* 197
Measurement of hypothalamic corticotropin-releasing factors in hypophyseal portal blood. *D. M. Gibbs* 203
Hypophyseotropic regulation of adenohypophyseal adrenocorticotropin secretion. *P. M. Plotsky* 207
Distribution of corticotropin-releasing factor in rat brain. *M. Palkovits, M. J. Brownstein, and W. Vale* 215
Localization, colocalization, and plasticity of corticotropin-releasing factor immunoreactivity in rat brain. *P. E. Sawchenko and L. W. Swanson* 221
Central and peripheral distribution of corticotropin-releasing factor. *P. Petrusz, I. Merchenthaler, J. L. Maderdrut, and P. U. Heitz* 229
Electrophysiological actions of corticotropin-releasing factor in the central nervous system. *G. R. Siggins, D. Gruol, J. Aldenhoff, and Q. Pittman* 237
Corticotropin-releasing factor: effects on the autonomic nervous system and visceral systems. *M. R. Brown and L. A. Fisher* ... 243
Behavioral effects of ovine corticotropin-releasing factor administered to rhesus monkeys. *N. H. Kalin* 249
Corticotropin-releasing factor: central action to influence gastric secretion. *Y. Taché and M. Gunion* 255
Corticotropin-releasing factor and behavior. *G. F. Koob and F. E. Bloom* 259

FEDERATION NEWS ... 265

NEWS ... 271

BOOKS RECEIVED ... 272

SYMPOSIUM

Mediator Mechanisms in Shock

Chaired by *R. F. Bond*

Introduction. *R. F. Bond* 273
Eicosanoids as mediators of ischemia and shock. *A. M. Lefer* ... 275
Vascular adrenergic interactions during hemorrhagic shock. *R. F. Bond and G. Johnson III* 281
Opioids and neuropeptides: mechanisms in circulatory shock. *E. W. Bernton, J. B. Long, and J. W. Holaday* 290
Monokines and the metabolic pathophysiology of septic shock. *J. P. Filkins* 300

MINISYMPOSIUM REPORT

Regulation of branched chain α-ketoacid dehydrogenase complex by phosphorylation-dephosphorylation. *R. A. Harris and R. Paxton* 305

SYMPOSIUMS

Pharmacology of Human Blood Vessels

Chaired by *S. Kalsner*

Introduction. *S. Kalsner* 316
The human adrenergic neurovascular mechanism. *J. A. Bevan* 317
Coronary artery reactivity in human vessels: some questions and some answers. *S. Kalsner* 321
Reactivity in human cerebral artery: species variation. *N. Toda* 326
Responses of human peripheral arteries to agonists: similarities and differences. *D. G. Wyse, G. McMartin, and B. Mullinger* .. 331
Adrenergic pharmacology of human and canine peripheral veins. *P. M. Vanhoutte and J. T. Shepherd* 337

Metabolic and Nutritional Aspects of Physical Exercise

Chaired by *V. R. Young*

Introduction. *V. R. Young* 341
Body composition as affected by physical activity and nutrition. *G. B. Forbes* 343
Protein metabolism during endurance exercise. *G. L. Dohm, G. J. Kasperek, E. B. Tapscott, and H. A. Barakat* 348
Metabolism of substrates: energy substrate metabolism during exercise and as modified by training. *P. D. Gollnick* 353
Metabolism of substrates: diet, lipoprotein metabolism, and exercise. *P. D. Wood, R. B. Terry, and W. L. Haskell* 358
Carbohydrate nutrition before, during, and after exercise. *D. L. Costill* 364

WORKSHOP

Workshop on Proteoglycans

Chaired by *N. B. Schwartz and L. Rosenberg*

Synthesis and structure of proteoglycan core protein. *N. B. Schwartz, G. Habib, S. Campbell, D. D'Elvlyn, M. Gartner, R. Krueger, C. Olson, and L. Philipson* 369
Mechanisms of chain initiation in the biosynthesis of connective tissue polysaccharides. *L. Rodén, T. Koerner, C. Olson, and N. B. Schwartz* 373
Proteoglycans in pathological conditions: atherosclerosis. *T. N. Wight* 381
Production and characterization of monoclonal antibodies directed against connective tissue proteoglycans. *B. Caterson, J. E. Christner, J. R. Baker, and J. R. Couchman* 386
Close and focal contact adhesions of fibroblasts to a fibronectin-containing matrix. *M. W. Lark, J. Laterra, and L. A. Culp* ... 394
Role of heparin and heparinlike molecules in thrombosis and atherosclerosis. *R. D. Rosenberg* 404

SYMPOSIUMS

Regulation in Physiological Systems During Exercise in Trained and Untrained Subjects: 5-Year Update

Chaired by *F. W. Booth*

Introduction. *F. W. Booth* ... 2259
Pulmonary control systems in exercise: update. *J. A. Dempsey, E. H. Vidruk, and G. S. Mitchell* ... 2260
Neural regulation of the cardiovascular system during exercise. *H. L. Stone, K. J. Dormer, R. D. Foreman, R. Thies, and R. W. Blair* ... 2271
The contribution of neuroscience to exercise studies. *R. M. Enoka and D. G. Stuart* ... 2279
Recent advances in temperature regulation during exercise in humans. *E. R. Nadel* ... 2286
Control of adaptations in protein levels in response to exercise. *F. W. Booth and P. A. Watson* ... 2293

Drug Toxicity in the Newborn

Chaired by *M. J. Reasor and S. Kacew*

Introduction. *S. Kacew and M. J. Reasor* ... 2301
Drug metabolism in the newborn. *G. J. Mannering* ... 2302
Consequences associated with nonnarcotic analgesics in the fetus and newborn. *R. G. Peterson* ... 2309
Effects of maternal opiate abuse on the newborn. *L. P. Finnegan* 2314
Prenatal effects of alcohol on growth: a brief overview. *E. L. Abel* ... 2318
Newborn response to cationic amphiphilic drugs. *S. Kacew and M. J. Reasor* ... 2323
Effects of oxygen on the newborn. *L. Frank* ... 2328

SYMPOSIUM SUMMARY

Organ-directed toxicology of antitumor agents. *J. S. Lazo and M. P. Hacker* ... 2335

SYMPOSIUM

Ketone Body and Carnitine Metabolism in Newborns

Chaired by *P. Hahn*

Carnitine and ketones in the perinatal period. Introduction. *P. Hahn* ... 2339
Ketone body metabolism during development. *D. H. Williamson* 2342
Ketone body metabolism in the mother and fetus. *G. E. Shambaugh III* ... 2347
Preferential utilization of ketone bodies in the brain and lung of newborn rats. *Y-Y. Yeh and P. M. Sheehan* ... 2352
Ketone body metabolism in the neonate: development and the effect of diet. *J. Edmond, N. Auestad, R. A. Robbins, and J. D. Bergstrom* ... 2359
Fatty acid metabolism and ketone formation in the suckling rat. *M. A. Wells* ... 2365
How important are carnitine and ketones for the newborn infant? *P. Hahn and M. Novak* ... 2369

ERRATUM ... 2374

SYMPOSIUMS

Neurohumoral Control of the Circulation

Chaired by *V. S. Bishop*

Arterial and cardiopulmonary reflexes in the regulation of the neurohumoral drive to the circulation. *V. S. Bishop and E. M. Hasser* ... 2377
Contribution of sympathetic neural reflexes to mineralocorticoid escape. *J. C. Romero, F. G. Knox, T. J. Opgenorth, J. P. Granger, and J. A. Keiser* ... 2382
Different effects of vasopressin and angiotensin II on baroreflexes. *P. G. Schmid, G. B. Guo, and F. M. Abboud* ... 2388
Neurohumoral mechanisms of sodium-dependent hypertension. *J. R. Haywood, T. J. Brennan, and C. Hinojosa* ... 2393
Aspects of cardiovascular reflexes in pathologic states. *I. H. Zucker and J. P. Gilmore* ... 2400
Role of baroreceptor resetting in cardiovascular regulation: acute resetting. *D. L. Kunze* ... 2408

Epilepsy: Brain-Stem Seizure Mechanisms and Drug Action

Chaired by *C. L. Faingold*

An overview. *C. L. Faingold* ... 2412
Mechanisms of seizure control mediated by γ-aminobutyric acid: role of the substantia nigra. *K. Gale* ... 2414
Role of the brain-stem reticular formation in tonic-clonic seizures: lesion and pharmacological studies. *R. A. Browning* ... 2425
Effects of different classes of antiepileptic drugs on brain-stem pathways. *G. H. Fromm* ... 2432
Mechanisms of sensory seizures: brain-stem neuronal response changes and convulsant drugs. *C. L. Faingold, W. E. Hoffmann, and D. M. Caspary* ... 2436
Core mechanisms in generalized convulsions. *W. M. Burnham* 2442

Isolated Hepatocytes as Experimental Material for Nutritional Research

Chaired by *N. W. Cornell*

Introduction. *N. W. Cornell* ... 2446
Compartmentation of enzymes: ATP citrate lyase in hepatocytes from fed or fasted rats. *N. W. Cornell, A. M. Janski, and A. Rendon* ... 2448
Nutritional influences on the distribution of the urea cycle: intermediates in isolated hepatocytes. *R. A. Freedland, A. J. Meijer, and J. M. Tager* ... 2453
Fatty acid-mediated disaggregation of acetyl-CoA carboxylase in isolated liver cells. *S. D. Clarke and L. M. Salati* ... 2458
Nutritional control of branched chain α-ketoacid dehydrogenase in rat hepatocytes. *R. A. Harris, R. Paxton, and P. Jenkins* ... 2463
Gluconeogenesis in the chicken: regulation of phosphoenolpyruvate carboxykinase gene expression. *M. Watford* ... 2469

MINISYMPOSIUMS

The Role of MHC-Encoded Molecules in Lymphocyte Activation

Chaired by *R. Schwartz*

Can resting B cells present antigen to T cells? *J. D. Ashwell, A. L. DeFranco, W. E. Paul, and R. H. Schwartz* ... 2475

B Cell Tolerance

Chaired by *H. Köhler*

Idiotype regulation: a model for B cell tolerance. *H. Köhler, M. K. McNamara, and R. E. Ward* ... 2480
Idiotypic network regulations of immune responses to HLA. *N. Suciu-Foca, C. Rohowsky-Kochan, E. Reed, R. Haars, V. Bonagura, D. W. King, and K. Reemstma* ... 2483

Tolerance and B cell repertoire establishment. *N. R. Klinman, R. L. Riley, P. R. Morrow, R. R. Jemmerson, and J. M. Teale* .. 2488
The signal for tolerance in B cells is not transmitted through antigen-specific immunoglobulin receptors. *M. Aldo-Benson* .. 2493

Number 9. JUNE 1985

NEWS ... 2497

BOOKS RECEIVED ... 2498

SYMPOSIUMS

Volume-Dependent Pathways in Animal Cells

Chaired by *A. L. Finn*

Introduction. *A. L. Finn* ... 2499
Volume regulation by *Amphiuma* red blood cells: strategies for identifying alkali metal/H^+ transport. *P. M. Cala* ... 2500
Na^+/H^+ exchange in volume regulation and cytoplasmic pH homeostasis in lymphocytes. *S. Grinstein, S. Cohen, J. D. Goetz, and A. Rothstein* ... 2508
Role of separate K^+ and Cl^- channels and of Na^+/Cl^- cotransport in volume regulation in Ehrlich cells. *E. K. Hoffmann* ... 2513
Cell volume regulation in frog urinary bladder. *C. W. Davis and A. L. Finn* ... 2520
Determinants of epithelial cell volume. *K. R. Spring* ... 2526

Chemical Modulation of Regulatory Peptides

Chaired by *S. Szabo and T. F. Burks*

Introduction. *T. F. Burks and S. Szabo* ... 2530
Mechanisms of depletion of substance P by capsaicin. *T. F. Burks, S. H. Buck, and M. S. Miller* ... 2531
Modulation of striatal enkephalinergic neurons by antipsychotic drugs. *J. S. Hong, K. Yoshikawa, T. Kanamatsu, and S. L. Sabol* 2535
Somatostatin depletion by cysteamine: mechanism and implication for duodenal ulceration. *S. Szabo and S. Reichlin* ... 2540
Cysteamine-induced depletion of somatostatin and prolactin. *W. J. Millard, S. M. Sagar, and J. B. Martin* ... 2546
Effects of cysteamine on the hypothalamic-pituitary axis in the rat. *D. J. McComb, P. D. Cairns, K. Kovacs, and S. Szabo* ... 2551
Neurobiological actions of cysteamine. *M. Brown, L. Fisher, R. T. Mason, J. Rivier, and W. Vale* ... 2556

Selenium and Carcinogenesis

Chaired by *G. F. Combs, Jr.*

Introduction. *G. F. Combs, Jr.* ... 2561
Changes in cellular glutathione levels: possible relation to selenium-mediated anticarcinogenesis. *R. A. LeBoeuf and W. G. Hoekstra* 2563
Effect of selenium on virally induced and transplantable tumor models. *J. A. Milner* ... 2568
Selenium inhibition of chemical carcinogenesis. *C. Ip* ... 2573
Considerations on the assessment of selenium status. *O. A. Levander* ... 2579
The epidemiology of selenium and cancer. *L. C. Clark* ... 2584

ERRATA ... 2590

Number 10. JULY 1985

SYMPOSIUMS

Response to Acute Lung Injury

Chaired by *B. A. Freeman and A. R. Brody*

Modulation of oxidant lung injury by using liposome-entrapped superoxide dismutase and catalase. *B. A. Freeman, J. F. Turrens, Z. Mirza, J. D. Crapo, and S. L. Young* ... 2591
Induction of early alveolar injury by inhaled asbestos and silica. *A. R. Brody, L. H. Hill, and D. B. Warheit* ... 2596

Capillary Endothelium: A Metabolic Barrier for Solute Transport

Chaired by *H. V. Sparks, Jr.*

Introduction. *H. V. Sparks, Jr.* ... 2602
The pulmonary endothelial surface. *U. S. Ryan, J. W. Ryan, and D. J. Crutchley* ... 2603
Effect of albumin on the structure of the molecular filter at the capillary wall. *F. E. Curry* ... 2610
Epithelial properties of brain capillary endothelium. *A. L. Betz* 2614
Endothelial serotonin uptake and mediation of prostanoid secretion and stress fiber formation. *D. Shepro and H. B. Hechtman* 2616
Capillary transport of adenosine. *H. V. Sparks, Jr., D. F. DeWitt, R. D. Wangler, M. W. Gorman, and J. B. Bassingthwaighte* ... 2620
Modeling of transendothelial transport. *J. B. Bassingthwaighte, H. V. Sparks, Jr., I. S. Chan, D. F. DeWitt, and M. W. Gorman* 2623

Neurobiology of Antiepileptic Drugs

Chaired by *P. C. Jobe, H. E. Laird II, and J. W. Dailey*

Antiepileptic drug research: an overview. *H. E. Laird II* ... 2627
Antiepileptic drugs: detection, quantification, and evaluation. *E. A. Swinyard and H. J. Kupferberg* ... 2629
Anticonvulsant drug mechanisms of action. *R. L. Macdonald, M. J. McLean, and J. H. Skerritt* ... 2634
Anticonvulsant drugs and the genetically epilepsy-prone rat. *J. W. Dailey and P. C. Jobe* ... 2640
Advances in the clinical development of antiepileptic drugs. *R. J. Porter, B. J. Hessie, J. J. Cereghino, G. D. Gladding, H. J. Kupferberg, B. Scoville, and B. G. White* ... 2645

MINISYMPOSIUMS

Immunoglobulins: Gene and Protein Structure

Chaired by *P. W. Tucker*

Summary. *P. W. Tucker* ... 2650
Regulation of expression of immunoglobulins M and D in murine B cells. *D. Yuan, A. C. Gilliam, and P. W. Tucker* ... 2652

Phenotyping of Macrophages, Dendritic Cells, and NK Cells

Chaired by *T. A. Springer*

The LFA-1, Mac-1 glycoprotein family and its deficiency in an inherited disease. *T. A. Springer* ... 2660
Deficiency of two human leukocyte surface membrane glycoproteins (Mo1 and LFA-1). *M. A. Arnaout, N. Dana, J. Pitt, and R. F. Todd III* ... 2664
Leukocyte LFA-1, OKM1, p150,95 deficiency syndrome: functional and biosynthetic studies of three kindreds. *D. C. Anderson, F. C. Schmalstieg, W. Shearer, K. Becker-Freeman, S. Kohl, C. W. Smith, M. F. Tosi, and T. Springer* ... 2671

Number 11. AUGUST 1985

SPECIAL ARTICLE

National Institutes of Health phase I, Small Business Innovation Research applications: fiscal year 1983 results. *K. J. Vener* .. 2679

SYMPOSIUM

Structural Correlates of Transport Regulation in Renal Epithelia

Chaired by *J. B. Wade*

Introduction. *J. B. Wade* ... 2685
Membrane structural studies of the action of vasopressin. *J. B. Wade* ... 2687

Microscopic investigation of structure and function in living epithelial tissues. *D. R. DiBona, K. L. Kirk, and R. D. Johnson* 2693
Structure-function relationships in H^+-secreting epithelia. *K. M. Madsen and C. C. Tisher* ... 2704
Structural adaptation to altered electrolyte metabolism by cortical distal segments. *B. Kaissling* ... 2710
Role of adrenal hormones in regulating distal nephron structure and ion transport. *B. A. Stanton* ... 2717
Adaptation of proximal tubular structure and function: insights into compensatory renal hypertrophy. *L. G. Fine and T. Bradley* 2723

MINISYMPOSIUM

Molecular Biology and Chemistry of MHC- and Tla-Encoded Molecules

Chaired by *R. N. Germain*

Introduction. *R. N. Germain* ... 2728
Use of molecular techniques for analysis of Ia structure-function relationships. *R. N. Germain, D. M. Bentley, M. A. Brown, R. Lechler, D. H. Margulies, M. A. Norcross, and J. Tou* ... 2730
Evolution and expression of the transplantation antigen gene family. *J. J. Devlin, G. Widera, A. L. Mellor, K. Fahrner, D. Sherman, E. H. Weiss, and R. A. Flavell* ... 2736

Number 12. SEPTEMBER 1985

FEDERATION NEWS ... 2741

NEWS ... 2742

SYMPOSIUM SUMMARY

Vasoactive agents in control of the mesenteric circulation. *R. O. Banks, R. H. Gallavan, Jr., M. J. Zinner, G. B. Bulkley, S. L. Harper, D. N. Granger, and E. D. Jacobson* ... 2743

SYMPOSIUMS

Functional Interaction of Developing Neurons with Their Target Tissue

Chaired by *G. R. Pilar*

Introduction. *G. R. Pilar* ... 2750
Purified proteins acting on cultured chick embryo ciliary ganglion neurons. *M. Manthorpe, G. E. Davis, and S. Varon* ... 2753
Regulation of cholinergic development by target contact. *J. B. Tuttle* ... 2760
Selective stabilization of retinotectal synapses by an activity-dependent mechanism. *J. T. Schmidt* ... 2767
Genes for neurotransmitter synthesis, storage, and uptake. *T. H. Joh, E. E. Baetge, M. E. Ross, C.-Y. Lai, M. Docherty, H. Bradford, and D. J. Reis* ... 2773

Endogenous Digitalis-like Factors

Chaired by *F. S. LaBella*

Introductory remarks. *F. S. LaBella* ... 2780
Relationships among endogenous digitalis-like factors in essential hypertension. *J. M. Hamlyn, P. D. Levinson, R. Ringel, P. A. Levin, B. P. Hamilton, M. P. Blaustein, and A. A. Kowarski* ... 2782
Evidence for a circulating endogenous Na^+-K^+ pump inhibitor in low-renin hypertension. *F. J. Haddy and M. B. Pamnani* .. 2789
Cardiovascular investigations of an endogenous digoxin-like factor. *K. A. Gruber, C. H. Metzler, T. E. J. Robinson, J. Buggy, B. C. Bullock, and J. R. Lymangrover* ... 2795
Endogenous digoxin-immunoactive factor in human subjects. *R. Valdes, Jr.* ... 2800
Progesterone derivatives that bind to the digitalis receptor: effects on Na^+,K^+-ATPase and isolated tissues. *F. S. LaBella, I. Bihler, J. Templeton, R.-S. Kim, M. Hnatowich, and D. Rohrer* 2806

Number 13. OCTOBER 1985

SYMPOSIUM

Neural Control of Renal Function

Chaired by *G. F. DiBona*

Introductory remarks. *G. F. DiBona* ... 2815
Neural regulation of renal tubular sodium reabsorption and renin secretion. *G. F. DiBona* ... 2816
Renal responses to stressful environmental stimuli. *J. P. Koepke* 2823
Electrophysiology of afferent renal nerves. *N. G. Moss* ... 2828
Renorenal reflexes: neural and functional responses. *U. C. Kopp* 2834
Reflex responses to reductions in functioning renal mass. *M. H. Humphreys, S.-Y. Lin, J. Ribstein, and E. Wiedemann* ... 2840
Renal nerves and hypertension: an update. *R. E. Katholi* ... 2846

SYMPOSIUM REPORT

Multiple opiate receptors: funtional implications. *W. R. Dixon, O. H. Viveros, C. D. Unsworth, E. J. Diliberto, Jr., E. L. Way, J. W. Lewis, A. Chandra, J. W. Holaday, J. B. Long, and F. C. Tortella* ... 2851

MINISYMPOSIUM

Lymphocyte Surface Antigens

Chaired by *L. L. Lanier*

Introduction. *L. L. Lanier* ... 2863
Thy-1: a hydrophobic transmembrane segment at the carboxyl terminus. *T. Seki, H.-C. Chang, T. Moriuchi, R. Denome, and J. Silver* ... 2865
Molecular characterization of the murine T cell antigen receptor and associated structures. *J. P. Allison, B. W. McIntyre, L. L. Ridge, J. Gross-Pelose, and L. L. Lanier* ... 2870

MINISYMPOSIUM SUMMARY

B lymphocyte development. *P. W. Kincade and R. A. Phillips* .. 2874

Number 14. NOVEMBER 1985

LETTER ... 2883

NEWS ... 2884

BOOKS RECEIVED ... 2885

SYMPOSIUM

William Beaumont Bicentennial Symposium: Roots and Shoots of American Experimental Biology

Chaired by *S. Wolf and S. Krop*

William Beaumont: the man, his time, and his legacy. *S. Wolf* 2887
The stomach's link to the brain. *S. Wolf* ... 2889

Motions of Alexis St. Martin's stomach. *J. H. Szurszewski* 2894
Regulation of gastric emptying. *T. F. Burks, J. J. Galligan, F. Porreca, and W. D. Barber* 2897
Physiological and metabolic effects of dietary fiber. *J. W. Anderson* 2902
Proteolytic enzymes, past and present. *H. Neurath* 2907
From Beaumont to poison ivy: marine sponge cell aggregation and the secretory basis of inflammation. *P. B. Dunham, L. B. Vosshall, C. A. Bayer, A. M. Rich, and G. Weissmann* 2914

MINISYMPOSIUM

Macrophages as Effector Cells

Chaired by *P. Davies*

Introduction. *P. Davies* 2925
Molecular basis for the enhanced respiratory burst of activated macrophages. *R. B. Johnston, Jr. and S. Kitagawa* 2927
Lipoxygenase pathways of macrophages. *R. J. Bonney, E. E. Opas, and J. L. Humes* 2933

Number 15. DECEMBER 1985

ACKNOWLEDGMENTS ... 2937

NEWS ... 2938

SYMPOSIUMS

Theoretical Trends in Neuroscience

Chaired by *H. Lecar and J. Rinzel*

Introduction. *H. Lecar and J. Rinzel* 2939
Gated ionic channels and the mechanism of excitability. *H. Lecar* 2941
Excitation dynamics: insights from simplified membrane models. *J. Rinzel* 2944
Statistics and quantum bumps in arthropod photoreceptors. *S. Yeandle* 2947
Calcium diffusion models and transmitter release in neurons. *R. S. Zucker* 2950
Neuronal interactions during epileptic events in vitro. *R. D. Traub, R. K. S. Wong, R. Miles, and W. D. Knowles* 2953
Rana computatrix: progress report, 1984. *M. A. Arbib* 2956

Ryanodine: A Probe of Sarcoplasmic Reticular Function in Striated Muscle

Chaired by *J. L. Sutko*

Introduction. *J. L. Sutko* 2959
Effects of ryanodine on cardiac subcellular membrane fractions. *H. R. Besch, Jr.* 2960
Ryanodine block of calcium oscillations in heart muscle and the sodium-tension relationship. *M. B. Cannell, R. D. Vaughan-Jones, and W. J. Lederer* 2964
Effects of ryanodine in skinned cardiac cells. *A. Fabiato* 2970
Spontaneous myocardial calcium oscillations: overview with emphasis on ryanodine and caffeine. *E. G. Lakatta, M. C. Capogrossi, A. A. Kort, and M. D. Stern* 2977
Ryanodine: a modifier of sarcoplasmic reticulum calcium release in striated muscle. *J. L. Sutko, K. Ito, and J. L. Kenyon* 2984
Effects of ryanodine on intracellular Ca^{2+} transients in mammalian cardiac muscle. *W. G. Wier, D. T. Yue, and E. Marban* 2989
